Rod-And-Clamp Design

Clip-n-Seal's rod-and-clamp design is easy to use, sturdy, and nearly unbreakable. The soft plastic and ergonomic shape provides a comfortable gripping surface to easily clip the pieces together and pull them apart. Clip-n-Seal works by forming an air- and watertight seal when a bag is closed between the rod and clamp. The food stays fresh because it's not exposed to air.

It Just Works Better

Clip-n-Seal works better than other bag clips because it actually reseals the bag. Bag clips just hold food in the bag. They are bulky, can break, and do not close tightly enough. Clip-n-Seal is easy to use, sturdy, and nearly unbreakable. The unique design is patent pending.

Versatile Money Saver

Clip-n-Seals are sized to fit nearly every packaged food bag. They can be used for chips, cereal, frozen food, coffee, spices, trail mix, or anything else that needs to be kept fresh. Clip-n-Seals can also be cut to any length. We provide a cut-to-size guide on our website at www.clip-n-seal.com.

Clip-n-Seal is ideal for outdoor activities: road trips, backpacking, or cycling tours (our favorite). It's reusable, washable, and practically indestructible.

Unexpected Uses

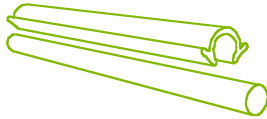

Not only do our customers love Clip-n-Seals, but they also use them in unexpected ways:

- Chemicals & clinical trials – used in laboratories and medical tests.
- Dairy – used in the milk production process.
- Pet foods – used on human-consumable, natural pet food bags.

Satisfaction Guaranteed

Clip-n-Seal is guaranteed for life. If for any reason it fails or you are dissatisfied, just return it for credit or an exchange.

Clip-n-Seals are made in the USA.

Clip-n-Seal is an innovative product that provides a simple, convenient, and easy way to close and reseal opened bags. The air- and watertight seal will keep food fresh for weeks, even months.

Customers Love Using Clip-n-Seals

"I have to say that the clips are amazing. Even my 4-year-old can get the clip on. Those other clips that you buy at the store are hard to get on, and they don't work."

- Anna Walker

"One of our favorite kitchen products."

- Jason Fried

"My wife and I love the Clip-n-Seal and are planning to give them away as birthday gifts to those people who already have everything else!"

- Dane Carlson

"I thought I'd write and tell you that the clips are in heavy rotation in my house. In fact, I think I actually eat fewer chips at a sitting because of them. I have new confidence that my leftover chips can sit in the drawer for many days without getting stale, so I don't feel the need to rush and eat them all before they get old."

- GeekLife.com

"Got them. Love them. Planning on buying more and blogging about it!"

- Rick Bruner
